APPENDIX A – RFP PARTICULARS

A. PURPOSE & SCOPE

The Atmospheric Fund (TAF) is seeking a Proponent to lead the development of a plan to accelerate the strategic rollout of public electric vehicle (EV) charging in Toronto. The plan will focus on public EV charging on private lands and non-City-owned public lands in Toronto; it will not include public EV chargers on City of Toronto assets, such as City-owned buildings and yards, Toronto Parking Authority parking lots, and on-street parking, which are being addressed through a parallel effort led by the City of Toronto.

The plan should be specific and actionable. Leveraging research findings and the input and contributions of public and private stakeholders, it should define the resources required, outline viable business models¹, and identify implementation pathways to ensure its successful delivery.

Some of the research, analysis, stakeholder engagement, business model development and other activities undertaken in the context of this project will be foundational to the development of a public charging plan for locations outside of Toronto but within the Greater Toronto and Hamilton Area (GTHA). However, the Proponent is required to deliver a public EV charging plan for Toronto only.

The expectation is to have a public EV action plan in place and endorsed by all relevant stakeholders by the end of 2026.

B. BACKGROUND

Convenient access to public charging is critical to driving EV uptake. Realizing an extensive, affordable, reliable, and accessible public charging network is particularly important in large urban centres like Toronto, where many EV owners lack access to charging at home or work. Yet Toronto's current public charging network is inadequate to meet the needs of an EV fleet that is anticipated to grow dramatically in the coming years.

In 2020, Toronto City Council approved an [EV Strategy](#) which identified an expanded EV charging network as essential to meeting Toronto's EV adoption targets and

¹ The term "business models" in this RFP refers to collaboration arrangements between two or more entities that set out who owns and operates the chargers and how the costs, revenues, and risks are shared. It does not refer to the various business models governing the operations of charging network operators. In the context of this RFP, different business models may be appropriate for different use cases and could range from an owner-operator model to a third-party service model to a hybrid of the two.

proposed a series of actions designed to improve charging availability. In October 2024, City Council adopted the staff report, [Approach to Public Electric Vehicle \(EV\) Charging to 2030](#), which includes a governance structure to guide the financial planning and operation of publicly accessible EV infrastructure assets on City-owned properties.

In adopting this report, City Council requested that TAF take the lead on engaging with public and private stakeholders to develop an integrated, actionable, and resourced plan that complements the City-operated charging network to accelerate the rollout of public EV charging on non-City public and private sector properties.

A wide range of stakeholders have an interest in realizing the comprehensive EV charging network that Toronto needs, yet no single entity can deliver it alone. Building out this network requires coordination among a diversity of stakeholders to:

- Develop a collective vision of where, when and how much EV charging will be needed;
- Identify current regulatory, financial and other obstacles to achieving the collective vision;
- Leverage the information, experience, capacities, authorities, and resources of key players to overcome the identified obstacles; and
- Determine the approaches and business models, including a framework for public-private partnership, that will facilitate coordination and collaboration to accelerate the strategic rollout of public EV charging in Toronto.

A clear, practical and widely supported plan, including the regulatory frameworks, investments, educational activities, and other key elements needed to advance implementation of a public EV charging network, can then be advanced by TAF, the City of Toronto and other key stakeholders.

C. SCOPE OF WORK

The Proponent will work in cooperation with TAF staff to develop a plan to accelerate EV infrastructure rollout on private lands and non-City-owned public lands in Toronto. The intention is to have a finalized and approved plan by December 2026.

The scope of the action plan will be to accelerate the buildout of EV charging stations that are accessible to the general public (i.e., access is not limited to employees of a specific workplace or residents of a specific building). The primary focus will be on charging for individually owned light duty vehicles (LDVs) with the potential for corporate light-duty and medium-duty vehicle fleets to serve as “anchor tenants” that strengthen the business case for investment by providing stable and predictable charging demand.

Some of the Proponent’s activities and outputs will have relevance extending beyond Toronto to the wider GTHA; the scope of each activity is noted in the table below.

The project will involve the following activities, timelines and deliverables:

Activity (geographic scope)	Proponent’s role	TAF role	Timeline	Deliverable

July 2026 – Dec 2026	A final Public EV Charging Action Plan endorsed by participating stakeholders, including an executive summary with key recommendations.
---	--	---	----------------------	---

TAF will be responsible for fulfilling any ongoing project-related governance and reporting requirements to the TAF Board and Toronto City Council (including submission of the final public EV Charging Action Plan prepared by the Proponent).

The action plan will need to include viable business models designed to attract adequate capital investment while also upholding key principles of EV charging accessibility and affordability. TAF staff will undertake research to identify EV accessibility best practices which can be incorporated into the stakeholder dialogue.

TAF and the Proponent will meet regularly to discuss the project status and coordinate next steps. Meetings will occur at least monthly and more frequently as needed based on the project stage. TAF will be responsible for reviewing and approving deliverables for activities mentioned in the Scope of Work.

- 2.2 TAF reserves the right to terminate this Agreement without cause, for any reason, including but not limited to the loss of funding from a funder of TAF, on 14 days' written notice to the Contractor.
- 2.3 The failure of either party to perform any of its respective obligations under this Agreement, which failure is not remedied within 10 days of receipt of notice from the non-defaulting party requiring the failure to be remedied, or either party's insolvency, voluntary or involuntary bankruptcy, receivership or assignment for the benefit of creditors will entitle the other party, without limiting any of their other rights or remedies, to terminate this Agreement without penalty.
- 2.4 The Contractor reserves the right to terminate this Agreement without cause, for any reason, on 60 days' written notice to TAF.
- 2.5 Upon termination of this Agreement, TAF will pay all amounts due and owing to the Contractor for Services performed to the date of termination. The Contractor will not be entitled to any other remuneration in respect of the termination of this Agreement by TAF.

- 2.6 Upon termination of this Agreement, the Contractor shall promptly: (a) deliver to TAF all documents, work product, and other materials, whether or not complete, prepared by or on behalf of the Contractor in the course of performing the Services; (b) return to TAF all TAF-owned property, equipment, or materials in its possession or control; (c) remove any Contractor-owned property, equipment, or materials located at TAF's office or other locations; (d) deliver to TAF all documents and tangible materials (and any copies) containing, reflecting, incorporating, or based on TAF's confidential information; (e) provide reasonable cooperation and assistance to TAF in transitioning the Services to an alternate service provider; (f) on a pro rata basis, repay all fees and expenses paid in advance for any Services that have not been provided; (g) and permanently erase all of TAF's Confidential Information (defined below) from the Contractor's computer systems.
- 2.7 Where TAF has loaned the Contractor any matter or thing to assist the Contractor in respect of the performance of this Agreement, the Contractor shall return any and all such matters or things in as good condition as when received by the Contractor, reasonable use therefore excepted, upon the termination of this Agreement or as soon as practicable after such matters or things have served their purpose, whichever first occurs. Where the Contractor fails to return any matter or thing loaned by TAF, in addition to any other remedy, TAF may deduct the cost or replacement therefor from any moneys otherwise payable to the Contractor under this Agreement.

ARTICLE 3 REMUNERATION

- 3.1 In consideration of the performance of the Services in accordance with this Agreement, TAF will pay the Contractor the fees as set out in Schedule A (the "**Service Fees**"). The Service Fees will be due and payable within 30 days of the completion of the project, or as otherwise agreed to between the parties. The Service Fees are inclusive of the cost of all materials used for the provision of the Services. At any time, TAF and the Contractor may amend the Service Fees, the Services, and/or the deliverables, subject to their mutual approval.
- 3.2 TAF will not reimburse the Contractor for any cost or expenses incurred by the Contractor in the performance of the Services unless specifically set out in Schedule A or agreed to in advance in writing.

ARTICLE 4 INTELLECTUAL PROPERTY

- 4.1 The parties acknowledge and agree that, subject to and in accordance with this Article 4, all original work created or produced by the Contractor in the course of providing the Services (the “**Work Product**”) and all intellectual property rights therein are the property of TAF. The Contractor agrees to and does hereby expressly and irrevocably assign to TAF all right, title, and interest (including ownership of copyright) in the Work Product. Further, if during the course of providing the Services, the Contractor develops any Work Product that is protected by copyright, the Contractor hereby waives unconditionally any moral rights it may have in such Work Product, and if applicable, the Contractor shall cause its personnel, or any subcontractors and their personnel, to waive their moral rights.
- 4.2 TAF acknowledges and agrees that the Contractor has developed and will continue to develop certain underlying processes, concepts and ideas, techniques, skills, and know-how, and may have developed or purchased technology licences, independently of any activity undertaken by the Contractor hereunder (collectively, the “**Background Information**”), and that (i) the Background Information and all intellectual property rights therein shall remain the property of the Contractor or its respective owner; and (ii) the Background Information, along with information of general public knowledge, is not included in the transfer of rights in the Work Product contained in Article 4.1. The Contractor agrees to grant to TAF an irrevocable, royalty-free, perpetual, worldwide, non-exclusive, sublicensable licence to any Background Information necessary for TAF to fully use the Work Product.
- 4.3 The Contractor warrants that no Work Product or Background Information will infringe or otherwise violate any patent, copyright, trademark, trade secret, or other proprietary right of any third party and confirms that no consents of any other parties are necessary under any agreements concerning any of the Work Product or any Background Information in order for the transfer, assignment, and license of any of the intellectual property rights in the Work Product and Background Information to be effective. The Contractor shall not incorporate into any Work Product anything that would restrict the rights of TAF to modify, further develop or otherwise use the Work Product in any way that TAF deems necessary, or that would prevent TAF from entering into any contract with any contractor or consultant other than the Contractor for the modification, further development or other use of the Work Product.

ARTICLE 5 CONFIDENTIALITY

- 5.1 For the purpose of this Agreement, “**Confidential Information**” means all non-public information belonging to TAF, including all strategic, technical, corporate, financial, economic, legal or other information or knowledge generally concerning TAF or any of its affiliates, subsidiaries or other parties in which it has an ownership interest, or specifically concerning the Services, whether disclosed orally, or in the form of written material, computer data or programs, and includes trade secrets, computer programs, code, methods, techniques, processes, computer applications, information about or relating to grantees and/or customers of TAF and financial information, however obtained, and whether obtained before or after the execution of this Agreement. Confidential Information does not include information that:
- (a) is disclosed lawfully to the Contractor by a third party who has no obligation of confidentiality to TAF with respect to the disclosed information;
 - (b) is or becomes generally known to the public, other than by a breach by the Contractor of its obligations under this Agreement; or
 - (c) is obligated to be produced under order of a court of competent jurisdiction or similar requirement of a government entity, so long as prior notice of such order or requirement is provided to TAF and the Contractor cooperates to the extent reasonable in preserving its confidentiality.
- 5.2 The Contractor acknowledges and agrees that the Confidential Information is the property of TAF and that the Contractor will use the Confidential Information only for the purpose of performing the services under the Services Agreement. The Contractor will maintain the Confidential Information in strict confidence and will not disclose Confidential Information to any employee, except to the extent necessary to perform the Services, or to any third party, except with the prior written consent of TAF. The Contractor agrees that it will inform its employees performing the Services of the confidential nature of the Confidential Information and will ensure that those employees maintain the confidentiality of the Confidential Information in accordance with the terms of this Agreement. The Contractor will cause each of its employees, and any third party to whom the Confidential Information is disclosed with the consent of TAF, to execute and deliver a written confidentiality agreement obliging such employee or third party to maintain the confidentiality of the Confidential Information in accordance with the terms of this Agreement.

- 5.3 Upon termination of this Agreement or otherwise upon the request of TAF, the Contractor will deliver to TAF all copies, whether written, in the form of computer data or otherwise, of all Confidential Information in the possession of the Contractor or other parties to whom the Contractor has provided Confidential Information. Neither the Contractor nor any parties to whom the Contractor has provided confidential Information will retain copies of any Confidential Information.

ARTICLE 6 DISPUTE RESOLUTION AND INJUNCTIVE RELIEF

- 6.1 In the event of a dispute claim, question or disagreement arising from or relating to this Agreement or the breach thereof (individually and collectively, “**Dispute**”) the parties shall use reasonable efforts to attempt to resolve the Dispute. If the parties do not reach such a solution (or agree in writing to mediate the Dispute), within a period of 45 days, then, upon notice by either party to the other party, and prior to taking any other legal actions, all Disputes shall be finally settled by arbitration pursuant to the Arbitration Act of Ontario before a single arbitrator, selected by the parties or appointed (in the event the parties cannot agree). The arbitration shall be held in Toronto, Ontario. The arbitrator’s decision shall be final and binding. The arbitrator shall issue a written decision setting forth in reasonable detail the basis for the decision. The arbitrator shall have no authority to award damages inconsistent with this Agreement or punitive or other damages not measured by the prevailing party’s actual damages, except as may be required by statute, and the parties hereby expressly waive their right to obtain such punitive damages in arbitration or in any other forum. The arbitrator shall award to the prevailing party, as determined by the arbitrator and if any, all reasonable pre-award expenses of the arbitration, including the arbitrator’s fees, administrative fees, travel expenses, out-of-pocket expenses such as copying and telephone, court costs, witness fees, and attorney’s fees. The arbitral award may be entered in any court having jurisdiction. All aspects of the arbitration will be final.
- 6.2 Notwithstanding sub-paragraph 6.1, the Contractor hereby recognizes that violation, breach or anticipated breach of the Confidential Information obligations and/or the Intellectual Property obligations of this Agreement may cause serious and irreparable harm to TAF for which an action in damages may not be a sufficient remedy. Consequently, the Contractor recognizes that TAF may, in addition to an action in damages, have the right to take the appropriate proceedings to obtain an interlocutory or permanent injunction in any jurisdiction of its choice as soon as possible as a necessary remedy to enjoin any further

breach or anticipated breach by the Contractor and without prejudice to the rights of TAF to obtain damages.

ARTICLE 7 INDEMNIFICATION

- 7.1 The Contractor agrees to indemnify, defend, and save harmless TAF, and its directors, officers, employees, agents, successors, and permitted assigns (collectively, the “**Indemnified Party**”) from all claims, demands, proceedings, losses, damages, liabilities, deficiencies, costs, and expenses (including reasonable legal fees and disbursements) suffered or incurred by the Indemnified Party that are related directly or indirectly to: (i) the provision of the Services under this Agreement; (ii) any inaccuracy of any representation or warranty of the Contractor contained in this Agreement or in any document delivered pursuant to this Agreement; (iii) any negligence or willful misconduct of the Contractor; (iv) any breach or non-performance by the Contractor of any covenant to be performed by it that is contained in this Agreement or in any document delivered pursuant to this Agreement; and (v) any breach or alleged breach by the Contractor of the intellectual property rights or privacy rights of any person, including TAF. The Contractor shall not enter into any settlement without TAF’s or an Indemnified Party’s prior written consent.
- 7.2 In no event will either party be liable for any special, consequential, incidental or indirect damages of any kind, howsoever caused, whether for breach of warranty, breach or repudiation of contract, tort, negligence or otherwise, even if the other party has been advised of the possibility of such loss. In no event shall either party be liable for any loss of profits, loss of business or goodwill.
- 7.3 The limitations of liability in section 7.2 shall not apply to any claims of third parties to the extent caused or contributed to by the Contractor, or to claims that arise from fraud, fraudulent misrepresentation, wilful misconduct, abandonment, corruption, or the criminal conduct of employees, officers, or directors of the Contractor or any related party.

ARTICLE 8 CONFLICT OF INTEREST

- 8.1 The Contractor warrants that it, its partners, directors, officers, employees, agents, contractors, subcontractors and volunteers shall not during the term of this Agreement provide any services to any person, corporation, body, group or organization where the provision of such services, actually or potentially, creates a conflict of interest with the provision of the Services pursuant to this

Agreement, without the Contractor first disclosing to TAF the actual or potential conflict of interest and obtaining the express prior written consent of TAF to perform such work, which approval may not be unreasonably withheld.
